

Motherson Techno Tools

Preferred **machining solution** provider.

Offering best in class integrated tooling and cutting solutions.

Motherson Techno Tools is a customer centric company. With high level of innovation, it provides best in class **integrated tooling and cutting solutions** for all kinds of metal machining requirements with the goal to proactively deliver a wide range of solutions in most demanding applications in various industries.

Motherson Techno Tools (MTTL) is a **joint venture** between Motherson Group and Sumitomo Electric Hardmetal Corp., Japan.

In addition to being a leader in CBN and PCD cutting tools in India, Motherson Techno Tools also has associations with **Big Daishowa Co. Ltd.**, Japan for Precision & Rigid holding tools, Boring Tools & Accessories, **Heule Werkzeug AG, Switzerland** for Hole edge front & back processing tools and **YAMAWA MFG. Co., Ltd.** Japan for Taps.

With state-of-art manufacturing set-up at Noida, MTTL manufactures PCD Inserts, PCD Reamers, CBN Inserts, Coated Carbide Inserts, Solid Carbide Drills etc. MTTL can cater to any exacting needs of the customers and specializes in “**Delivering Solutions**” to its customers through its team of trained sales engineers and marketing partners located close to customers, all across India and Mid-East.
